

All Mine

Donovan Woods

Beautiful
I'm into something beautiful
But I need you to be dutiful
Til' I get home

High time
I told you darlin' high time
High time we draw the papers up and sign it
For everything I did in silence

And now I'm walking, roaming like a candle
If somebody can stand you, love him for your whole life
I know one thing, nobody will worry
if somebody had hurt me, they'll get to have a good cry

I got time but it's all mine
I got time but it's all mine
I got hard up for feelings with someone who really matters
I got time but it's all mine

And love is
Not something you can lean on
Ain't nothing like a sweet song
It's all just words

Oh good times
Outside of all the small lies
And funerals for good guys we both cried at
I mean everything you and I did besides that

And now I'm walking, roaming like a candle
If somebody can stand you, love him for your whole life
I know one thing, nobody will worry
if somebody had hurt me, they'll get to have a good cry

I got time but it's all mine
I got time but it's all mine
I got hard up for feelings with someone who really matters
I got time but it's all mine

Beautiful
I'm into something beautiful

And now I'm walking, roaming like a candle
If somebody can stand you, love him for your whole life

I got time but it's all mine
I got time but it's all mine
I got hard up for feelings with someone who really matters
I got time but it's all mine

(But it's all mine)
(But it's all mine)
I got hard up for feelings with someone who really matters
I got time but it's all mine
