

## Brand New Gun

Donovan Woods

I wrote this on a train  
As I made my way  
In the rain, over the border  
Running state to state

And I know that her motions  
Say it's all in fun  
But she comes home shining  
Like a brand new gun  
Like a brand new gun

In love, I forged my name, love  
And I know, I did it again, love

Well I know I ain't gonna say it  
But that's the farthest I've roamed  
And you know I'll gladly obey it  
Please send me back home

And I know that my motions  
Say it's all in fun  
But I come home shining  
Like a brand new gun  
Like a brand new gun

In love, I forged my name, love  
And I know, I did it again, love

All I know is bending hands  
And how about you and me, get married, ma'am  
I got that we won't get far without a plan  
So how about you and me, we get married, ma'am
