

Drove Through Town

Donovan Woods

I was waiting in the car, then a Ford got stolen
You didn't love me yet
You were squinting in the sun, looking at me from church steps
And all of the grass was still wet

Hold tight, you wanna know what I look like
You wanna make sure I'm breaking down sometimes

I drove through town
There wasn't anybody around
I drove through town
It's easier to cry bout now
I drove through town
I didn't get one red light
I drove through town
It felt relatively alright
I fell relatively all night

You were living in a nightmare, everything coming undone
While all of my dreams came true
I was sleeping on couch, waiting on the mail to come
What the hell else could I do?

These days you wanna hear what I can't say
You wanna make sure I'm breaking down sometimes

I drove through town
There wasn't anybody around
I drove through town
It's easier to cry bout now
I drove through town
I didn't get one red light
I drove through town
It felt relatively alright
I fell relatively all night

I had days, and days, and days not to think about you
And I didn't think about you

I drove through town
I drove through town
I thought 'bout how it all went down
I drove through town
