

How Much is That Hat?

Donovan Woods

There's no way
I can only get so much done in a day
I lay babe
Writing some old fashioned morality play
From the roofs of their houses, love
From the roofs of their houses, love
That's where my heart will be

How much does a hat like that cost?
If I was him
I'd never take it off, no
How much does a hat like that cost?
If it was mine
Oh if it was mine
I would wear it all the time
It's a good hat
It's a good hat

So darling, don't cry
And don't leave your man outside
But there was a road and there was a rolling tide
She showered and sweetly arrived to your room on time
You tell her you love her
Well, she ain't got that in mind
From the roofs of their houses, love
From the roofs of their houses, love
That's where my heart will be
From the roofs of their houses, love
From the roofs of their houses, love
That's the best place from which to see

And say
How much does a hat like that cost?
If I was him
I'd never take it off, no
How much does a hat like that cost?
If it was mine
If it was mine
I would wear it all the time
If it was mine
If it was mine
I would walk tall
In a straight line
It's a good hat
It's a good hat
