

I Live A Little Lie

Donovan Woods

It's callin' like a train sound
Quiet as a church mouse
I never got nervous, I knew you'd come around
I live a little lie now

It's always in the background
Whether I can live it down
I never got nervous, I knew you would get out
I live a little lie now
I live a little lie now

Carrying the same [?]
Calm as ghost town
I never got a-worried, I knew you'd hold out
I live a little lie now
I live a little lie now

It's [?]
Quiet as a housefire
I never get anxious, I know I'll get it right
I live a little lie now
I live a little lie now

It's comin' in the backdoor
Growin' in the floorboards
I never got nervous and I won't anymore
I live a little lie now
I live a little lie now
I live a little lie now
I live a little lie now

I live a little lie now
I live a little lie now
I live a little lie now
I live a little lie
I live a little lie
