

# My Good Friends

Donovan Woods

My good friends ain't nothing but trouble  
My good friends ain't no help to me  
Lord I'll win this fight I ain't tried but I just might  
My good friends ain't no help to me

And if I went back there today  
You don't work there anyway  
Lord I'll win this fight I ain't tried but I just might  
My good friends ain't no help to me

And if I loved you better  
It wouldn't really matter  
I cannot stay here forever  
I cannot stay another hour

My good friends ain't nothing but trouble  
My good friends ain't no help to me  
Lord I'll win this fight I ain't tried but I just might  
My good friends ain't no help to me

And if I loved you better  
It wouldn't really matter  
I cannot stay here forever  
I cannot stay another hour

My good friends ain't nothing but trouble  
My good friends ain't no help to me  
Lord I'll win this fight I ain't tried but I just might  
My good friends ain't no help to me  
My good friends ain't no help to me  
My good friends ain't no help to me
