

## No Time Has Passed

Donovan Woods

How we gonna get there baby  
No one's getting shot today  
I was in the streets then darling  
Running down the alleyway

I was gonna nurse that thing home  
He was gonna shoot his friend  
I was gonna step in baby  
Never stepping in again

What if there was no one out there  
What if it was me and him  
I was holding two old buckets  
Water filled them to the brim

He was just a drunken outlaw  
I was just a stable hand  
If I was gonna step in baby  
I needed to be twice the man

Gunshots sound  
Over hardened city ground  
And when you come I call  
Like no time has passed at all

And this town will never change  
Home sweet home the brave  
Where horses sleep in stalls  
Like no time has passed at all

How we gonna get there baby  
No one's getting shot today  
I was in the streets then darling  
You were in the alley way

I was gonna nurse that thing home  
He was gonna shoot his friend  
I was gonna step in baby  
But I didn't want to condescend
