

The First Time

Donovan Woods

When you're up all night,
'Cause you want it so bad,
But you know deep down,
You're never gonna get it back.
You can try,
All you like,
You'll never get as high as the first time...

When you dive so deep,
You never wanna come up for air,
And you would if you could,
But you can't,
Live you're whole life down there...

You know I'm right,
You know why...
You'll never get as high the first time.

And I could walk out,
On the water,
I know you'll just roll your eyes.
You're gonna learn to,
Love another,
So will I...

We'll never get as high as the first time.
We're never gonna get as high as that first time.

In your tiny bed,
When I was a friend of a friend,
It was all a blur,
I can't say I remember it...
But it's gotten so good,
In our minds,
We'll never get as high as that first time.

And I could walk out,
On the water,
I know you'll just roll your eyes...
Gonna learn to,
Love another,
So will I.

We'll never get as high as the first time.
We're never gonna get as high as that first time.
Never get as high as the first time.

And I could walk out,
On the water,
I know you'll just roll your eyes...
Gonna learn to,
Love another,
So am I.
Gonna learn to,
Love another,
So am I!

We'll never get as high as the first time.
We're never gonna get as high as that first time.
We'll never get as high as that first time.
We'll never get as high as the first time.
We'll never get as high as that first time...
