

Way Way Back

Donovan Woods

Traffic lights
If I time this right
I can get back home then come back here and stay the night
And she's holding out for something cleaner than I might
And all that to say, she probably knows I ain't the guy

I'm dreaming 'bout a day when somebody says
"I don't want no tired lover in my bed"
"I don't want no tired lover in my bed"
And yet

I know we go way way back
Somebody to hold you, somebody who knows you
I know we go way way back
I never started over like I was supposed to
I know we go way way back
I know we go way way back
I know we go-

And I can't relax
And it's based on fact
And I meditated on it, girl I can't change that
And someday we'll get houses on a quiet street
And we'll climb out windows late at night and finally meet

But it'll still feel wrong
And I'll still feel gone
And you'll find out who I'm talking 'bout in all the songs
And I'll walk home with my shorts in a backpack
We'll always go as far as we've gone and you know that's...
Way way back

I know we go way way back
Somebody to hold you, somebody who knows you
I know we go way way back
I never started over like I was supposed to
I know we go way way back
I know we go way way back
I know we go way way back
I know we go-
I know we go-
I know we go-

When it's right
Someone sighs
I wanna wonder what it feels like
I know I might
If someone sighs
I wanna wonder what it feels like

I know we go way way back
Somebody to hold you, somebody who knows you
I know we go way way back
I never started over like I was supposed to
I know we go way way back
I know we go way way back
I know we go way way back

I know we go-
I know we go-
I know we go-
