

# We Used To

Donovan Woods

Sun's up, so gather up  
Everything strewn about the room  
I don't wanna be the water  
I don't wanna be the night sky  
I don't wanna be the nice guy  
Who took your hand at the wrong time  
You see I come from a long line  
You know I do

We just wanna feel  
Like we used to  
But it's coming up sideways  
We just wanna feel  
Like we used to  
Did somebody say it was alright by you  
Like we used to  
And I'm turning the whole time  
Like we used to  
Like we used to

It's still just the one of us  
But if you call I will book the room  
I don't wonder what brought you  
So kind of me to offer  
And you figure I still might  
Walk into your high rise  
And you can shift your thighs like  
You know I do

We just wanna feel  
Like we used to  
But it's coming up sideways  
We just wanna feel  
Like we used to  
Did somebody say it was alright by you  
Like we used to  
And I'm turning the whole time  
Like we used to

I stumbled in the water  
Fell back in the waves  
Somebody else kept calling from the shoreline  
Judgement day, hey  
That's an order  
That's what I did  
She still sighs  
I wouldn't waste my time

Like we used to  
Like we used to  
We just wanna feel  
Like we used to  
But it's coming up sideways  
We just wanna feel  
Like we used to  
Did somebody say it was alright by you  
Like we used to

And I'm turning the whole time  
Like we used to  
Like we used to

Like we used to  
Like we used to
