

## Take It

Dope Stars Inc.

i don't feel any hope  
i can't take anymore  
Never feel like before  
Never hope i could grow  
i will never forget to choose again  
i will never regret to be myself

so i will take and make it  
i'm back like before  
and i will never let to lose my way  
i do what i want

i will just take it and get it  
this way like before  
and i will never let my fingers stop  
i do what i want

i never found a new  
temptation for a cure  
but now i have to choose  
and fall away from rules  
the only thing i want  
is right or maybe is wrong  
when what is meant for you  
has never been so sure

i never felt like i know it
