

I Feel Like a Feather in the Breeze

Doris Day

I feel like a feather in the breeze
Ridin' on high, high in the sky
But, what am I gay about

What is it makes me being so
What does my heart hurray about
Why do I feel this way

This world is heaven
What is it makes it seem so
If you must know the answer
It's you, you, you

I feel like a feather in the breeze
Ridin' on high, high in the sky
Honey, and I'm walkin' on air
Since the moment that you told me that you care

Feel like a feather in the breeze
Floatin' through space in your embrace
Dancing on clouds way up above
Since the second that you beckoned to my love

I'm happy, so happy when you're near
My troubles just disappear
As soon as you're by my side
I'm satisfied

I feel like a feather in the breeze
Havin' my fun, kissin' the sun
And it's because you are the one
So I'm singin' like the birdies in the trees

And feelin' like the feather
Laughing at the weather
Feelin' like the feather in the breeze
