We all learn the hard way Like a ride on the rain We try to keep the secrets Tied and chained

Out there on the dark side I can hear you call It's so hard to believe you I can't run no more

The last time you led'em all astray But this time you gave yourself away

So cry wolf
And tell me it's for real
Cry wolf
Since no one knows the way you feel
Cry wolf
Your tears are never real
And no one comes to hear
When you cry wolf

We all feel the fences Standing wide and tall Wrapped around our senses Made to fall

Outside in the real world Deep inside your mind Lies a lost deceiver I won't wait in line

The last time, you led'em all astray This time, you gave yourself away

Cry wolf
And tell me it's for real
Cry wolf
Till no one knows the way you feel
Cry wolf
Your tears are never real
And no one comes to hear
When you cry wolf

So cry wolf Cry Cry wolf Cry Cry yea! Cry yea!

So cry
Cry wolf
And tell me it's for real
Cry wolf
And no one knows the way you feel
Cry wolf

Your tears are never real And no one comes to hear When you cry wolf

Cry wolf

Cry wolf

Cry

Cry wolf

Cry

Cry wolf

Cry

Cry wolf
