

Raise Your Fist in the Air

Doro

I feel it in the air
Feel this life it's so unfair
Where you're born into is hit or miss
No more with living safe
When this world begins to shake
Kill them all- gotta kill the beast
Fight while you're alive

Raise your fist in the air - raise your fist
Raise your hands up higher - hands up high
Raise your fist in the air - raise your fist
We are hounds, hounds of fire

Raise your fist in the air - raise your fist
Raise your hands up higher - hands up high
Raise your fist in the air - raise your fist
We are hounds or hellfire

I'll fight until I die
Fight this fight to stay alive
In my heart I know I'll be alright
I know it's up to me
Change this world or let it be
Take a stand and lend a helping hand
Fight - fight till we die
