

Welcome to the Tribe

Doro

You hear it callin'
It's coming tonight on the wind
A love as old as the earth and original sin
If I lay my arms around you
Would you fall apart on me

Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe

Take my hand, take a bite
Take a look in the past
We were one we were here
Through eternity's dance

When I lay this kiss upon you
You will never leave oh no

As I welcome you...
Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe

Close your eyes as I take you
Into the tribe
A lovely night as I take you
Into the tribe

As I welcome you
To the tribe
Just close your eyes
As I welcome you
Just right
