## You're My Family

Everyone hurts, everyone bleeds With all this pain right underneath All we need is holding on We got the key To carry on 'Cause you are

You're my family You're my destiny The only ones The only ones I want You mean more to me More than life can be The only ones The only ones I love We're united in our hearts

The world is turning cold and dark Our lives so wounded Full of scars And when I'm out here on my own I don't have to face it all alone 'Cause I know

You're my family You're my destiny The only ones The only ones I want You mean more to me More than life can be The only ones The only ones I love We're united in our hearts Doro
