Say... From the club, to the Jag, to the crib, to the bedroom
Never thought the night would end with breakfast in the bedroom
When we left the bar,
Coulda did it in the car
But don't forget I'm 6' 2"
That mean I need a lotta leg room
Rich body, Own money
Everything a man want
Keep me on the side
I'll do everything ya man won't
If he do it, I'm a do way better than
Anybody, Anywhere; can't compare me to any man
He be close to a minute man
I'll make it happen
You steady givin me orders
I'm steady servin you breakfast
Any way you want it
Best believe you can have it
Hell of an opportunity

I can make it a habit
And all I want from you is permission to be your captain
I can put you in position and show you why I'm the captain
Makes it sound like I'm cocky
I'm the best around, hands down
I guarantee you agree this man will be the best now
