

Rest assure there will be more
onslaughts
off days
more to endure
outside ain't getting easier
live a long time
to look back on before

take me back
to when I had both eyes on the floor
looking up, before
before the forlorn
so easy you're led astray
so easy your minds change
like a weather vane
all day
live your whole life ashamed
no wonder your edges frayed

afraid
send the rest ashore
so we all can explore
as yet I've found nothing
but I know there's more
take me back
go easy on
go easier on
easy on

finally I found you
it's not getting any easier
far away from everything and everyone
it's not getting any easier
the final straw came when in the end it didn't get
didn't get easier
finally I found you
it's not getting any easier

I'll cry over it not getting any easier
finally you're here
and it's not getting any easier
the final straw came when I found that
it's not getting any easier
it's not getting any easier
