

# Heart Of Stone

Dotan

Bleeding out  
My world is gone  
The walls come down  
But there's nothing wrong

Built it up  
A broken home  
Safe here in my city of stone

Leave me alone  
Ended up  
My soul is numb

Crashing down  
Covered up  
All in the cold

People die  
Right by my side  
Don't feel a thing  
I close my blinds

Nighttime calls  
Streets get dark  
Nowhere to turn but I see it all now

Leave me alone  
Ended up  
My soul is numb

Crashing down  
Covered up  
In the cold

I am composed  
A prisoner of my own heart  
Should I know that  
Love is gonna tear it apart

Leave me alone  
Ended up  
My soul is numb

Crashing down  
Covered up  
In the cold
