

# Hopes And Dreams

Dotan

Here I am  
Can you see my shadow  
Can you see my smile

Don't you know anything can happen  
If you just believe

All that you see right there in your dreams  
You can make it real  
All that you need if you close your eyes  
Follow what you feel

I got hopes I got dreams  
Everything is real to me  
I'm right there where I want to be  
I got hopes I got dreams  
And when life is hitting me  
I still got my fantasy

Come on and follow me follow me

Take my hand  
We can walk together  
Underneath the rain  
Don't let go  
Anything you wish for is closer than it seems

All that you see right there in your dreams  
You can make it real  
All that you need  
If you close your eyes  
And follow what you feel

I got hopes I got dreams  
Everything is real to me  
I'm right there where I want to be  
I got hopes I got dreams  
And when life is hitting me  
I still got my fantasy

Some days I know  
It's hard enough to find your way  
But nothing is impossible  
Don't worry you will have your day

I got hopes I got dreams  
Everything is real to me  
I'm right there where I want to be  
I got hopes I got dreams  
And when life is hitting me  
I still got my fantasy

Come on and follow me follow me
