

# I Will Follow

Dotan

All the years I've been waiting  
Knocking heads with my patience  
Letting someone go  
But I don't really know

I got lost in the system  
Like a light in the distance  
But you showed me how to glow  
How I'll never know

Talk me back to life  
Show me piece of mind  
Pull me in pull me closer  
Close my eyes going under

Cause I don't need a reason  
Or something to believe in  
Your eyes let me know  
Like footsteps home  
I will follow

Now there's no more screaming  
I'm silencing the demons  
Your eyes let me know  
Like footsteps home  
I will follow

Fall asleep in the daylight  
I'm at ease for the first time  
I don't need control  
I can let it go

Cause every thought on the inside  
Is like a drug that I can't fight  
A different kind of low  
I think I kinda know

Talk me back to life  
Show me piece of mind  
Pull me in pull me closer  
Close my eyes going under

Cause I don't need a reason  
Or something to believe in  
Your eyes let me know  
Like footsteps home  
I will follow

Now there's no more screaming  
I'm silencing the demons  
Your eyes let me know  
Like footsteps home  
I will follow

Follow you  
Follow follow you  
Follow follow you

I will follow follow you  
Follow follow you  
Follow follow you

Cause I don't need a reason  
Or something to believe in  
Your eyes let me know  
Like footsteps home  
I will follow
