Before The Ring On Your Finger Turns Green

Dottie West

He's just leadin' you on honey he'll be gone Before the ring on your finger turns green

Your new love is the playboy kind he's not looking for the ties that bind

He'll leave you with a tortured mind before the ring on your finger turns green

He's just leadin' you...

He's fickle cheap and phoney too just like the ring he gave to you

I know cause I've been through it too when the ring on my finge r turned green

He's just leadin' you...

Before the ring on your finger turns green
