

Stay

Double You

Now the wind has blown your name
Time just took away your flame
The light has gone it's gone away
There's only sorrow in my pain

Here I am in memory lane
Now you're gone, it's not the same
You're out of love and out of hope
But thank you for the day you came

Stay with me, I have to be with you
Stay with me this time
Stay with me, I have to stay with you
Stay with me tonight

In my soul in my mind
There's a truth I cannot find
You threw it all, all away
I love you and it's plain to say

Stay with me, I have to be with you
Stay with me this time
Stay with me, I have to stay with you
Stay with me tonight

Could this be a sin
Will the world begin
Will they understand
The feelings of this man

Believe me hand in hand
I will stand by you
We must all unite
We can win this fight believe me

Stay with me
