

Wonderful World

Double You

Don't be afraid now
You are the victim of the human race
I'll pray for your sorrow, man without a face
Beg, steal and borrow, do just what you can
There's hope for tomorrow, believing in today

Look a minute at your home
Look a minute at your home
Look a minute at your home
Tonight

It's a wonderful world to be living in
It's a wonderful world to be living in
It's a wonderful world to be living in
It's a wonderful world to be living in

Give him a future we know what to do
Heaven is the answer, were knocking at, it's door

Look a minute at your home
Look a minute at your home
Look a minute at your home
Look a minute at your home

It's a wonderful world to be living in
It's a wonderful world to be living in
It's a wonderful world to be living in
It's a wonderful world to be living in

Don't be afraid now, time will tell the truth
Look a minute at your home
Look a minute at your home
Look a minute at your home
Look a minute at your home
Tonight
