

Beside You

Dougie MacLean

When it's time to bleed then the ones you need
Are the ones who stand beside you
Not the ones who've flown but the ones who've grown
With the peace that's deep inside you

CHORUS

And I will not let go
No I will not let go
I will not let go

When it's time to shout and let the anger out
Let the feelings free and pass through
It's the ones who care who will still be there
With the peace that's deep inside you

CHORUS

When it's time to go then you really know
All the ones who share the journey
And so you travel light because you know it's right
With the peace that's deep inside you

CHORUS (And we will not...)
