

# Hide in the Wind

Dougie MacLean

The time has come the light is leaving  
and what was sure will soon be gone  
And what was certain falls and fades away  
And though we search the fields are empty  
and through the forest there's not a sign  
The words we shared we can no longer say

CHORUS

They hide in the wind, hide in the wind  
They hide they never leave us  
They hide in the wind, hide in the wind  
They hide...ready to lead us home

Julie sang and played piano  
she taught her little ones the same  
Follow your dreams  
let no-one bend your way  
For some the day will last a lifetime  
for others it's a moment long  
It all flows endless dark into the grey

CHORUS

So in this silent place you'll find us  
where troubles lie too deep to stand  
And seeds we sow must grow  
from where they land  
Oh the time has come the light is leaving  
and what was sure will soon be gone  
And what was certain falls and fades away

CHORUS
