

## Just a Little Thunder

Dougie MacLean

I close my eyes and she is with me now  
A little smile across this wrinkled brow  
And opening and hoping she will always be  
Just the same for you as it's the same for me  
Sweet mystery

Just a little thunder, just a little fear  
It won't be long 'till we've got it going  
Just a little tremble whenever you get near  
It won't be long 'till we've got it going strong

See these old and tired walls  
Once she was strong but with the time she falls  
And even in the evening of her autumn haze  
She will give us shelter with the wood fire blaze  
Lazy days

Just a little thunder, just a little fear  
It won't be long 'till we've got it going  
Just a little tremble whenever you get near  
It won't be long 'till we've got it going strong
