

When The People Speak

Dougie MacLean

For too long we've heard them laughing at our dreams
Ridicule our reasons, and blind ignoring what it means
For too long we have believed the walls they made
But now we see a shining light and we are not afraid

CHORUS

When the people speak it's not with corporate lies
It's not with indecision no or academic bows and ties
When the people speak it thunders through these hills
It's not a thing that's mild and meek
When the people speak

There's a fear that's made to keep us in our place
Pacify our anger and justify our fool disgrace
There's a fear made to destroy and to degrade
Bur now we see a shining light and we are not afraid

CHORUS
