

Walk in Fire

Doves

It seems, it seems there's nothing
That you couldn't do
With a drink inside of you
Is there nothing
You'd not do
With a drink in you?

I've always known
That you felt the pain
And it had to start to show
It'd driven you insane
I could lie, but I can't
'Cause you know it's so

You tell me, you say
"I walk in fire, you walk in fire"
You're not free till you
Walk in fire, I walk with fire, I walk in fire

You've always been
A loose cannon, gone
And the way you were back then
You'd take on anyone
It takes years to accept it all
And to be yourself

You tell me, you say
"I walk in fire, you walk in fire"
You're not free till you
Walk in fire, I walk with fire, you walk in fire

On and on and day by day
We fool ourselves we ain't the same
Everyone who stayed away
Man I always felt your pain

On and on I tell myself
Fool ourselves we ain't the same
Everyone who stayed away
Man I always felt your pain

You tell me, you say
"You walk in fire, you walk in fire"
You're not free till you
You walk in fire, walk with fire, walk in fire
