

## Winter Hill

Doves

Wherever you go  
You will be with me  
And when you'll talk  
You'll be talking to me

But your secret world  
As we walk on by  
With the sky full of birds  
And the dusk go approaching

Climb the long grassy track  
to the top of Winter Hill  
Climb the real rocky track  
I'll see you back on Winter Hill

Wherever you go  
You will return safe  
And when you will walk  
You'll be walking with me

But if comes the day  
You meet someone new  
You will be with them  
But I'll be thinking of you

Climb the long grassy track  
to the top of Winter Hill  
Stay with me see so far  
at the top I'll see you back  
I'll see you back on Winter Hill

Where she traveled far  
Yeah we stayed apart  
But she crashed alone  
On Winter Hill

Climb the long grassy track to the top  
I can't turn back  
Climb the real rocky track  
to the top of Winter Hill  
I'll see you back on Winter Hill
