

Circles

Down with Webster

You got me up at night
I'm thinking I should give you a call
You're coming over, right?
And we'll do it again, again
But in the morning light
You tell me you don't know, not at all
A roller coaster ride
And we'll do it again, again

And all the small things I hate get bigger
And all the big things I love, go figure
And on and on and on and on and on
And we'll do it again, again, again

We're running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles
We're running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles

I didn't come to fight
But it's kinda hard with my back against the wall
I'm working overtime
And we'll do it again, again
It's never over, right?
It's like there's something written in the stars
A roller coaster ride
And we'll do it again, again

And all the small things I hate get bigger
And all the big things I love, go figure
And on and on and on and on and on
And we'll do it again, again, again

We're running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles
We're running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles

You're too sharp and I'm dull
When I'm hungry, you're full
But when my back's on the wall
You got that magnetic pull
You put the 2 in my 4
Just when I think that I'm yours
That's when we're having a blow-out
Like we were clearing the store
So now I'm try'na go places you won't go
Say you need space, you be on Pluto though
Who are you shitting, you don't know

But that's one thing I can give you kudos for
And I'm through playing games, just try sudoku
And us two together, that's two no-nos
I bend over backwards like Judo throws
But what I gotta try for?
You too loco and you know that
And I stuck around when I said before that I'd never go back
To that same place I was at when I started
I can't throw that towel in the ring
Do me a favor
The birds and the bees be stinging me
Sorry, that's just my nature and we're -

Running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles
We're running around, running around in circles
We're running around, running around, and oh
We're running around, running around in circles
Oh, circles
