```
The first thing that I see when I wake up
Are the stars in my eyes
Oh oh whoa whoa whoa oh oh
Oh oh whoa whoa oh oh
We've waited our whole life
And now it's time to shut shit down
So don't act surprise
Oh oh whoa whoa oh oh
Oh oh whoa whoa whoa oh oh
So love it or hate it we own it
We did it, we made it, we've done it
We're finally here
We're finally here
We're finally here
And we ain't going nowhere
So look at us now
We did it all for this
And we are and we are
And we ain't going nowhere
So look at us now
We were made for this
And we are and we are
And we ain't going nowhere
You see me on the rise and never back down
I gotta get what's mine
Oh oh whoa whoa oh oh
Oh oh whoa whoa whoa oh oh
We kept down all these doors just to get here tonight
And baby it's our time
Oh oh whoa whoa oh oh
Oh oh whoa whoa oh oh
So love it or hate it we own it
We did it, we made it, we've done it
We're finally here
We're finally here
We're finally here
And we ain't going nowhere
So look at us now
We did it all for it
And we are and we are
And we ain't going nowhere
So look at us now
We were made for it
And we are and we are
We ain't going nowhere
So we ain't going nowhere
We ain't going nowhere
We ain't going nowhere
Going nowhere
And we ain't going nowhere
```

You see me coming up, you should have took that as a sign Now everywhere you look I'm really not that hard to find I remember working overtime, trouble on my mind

Now I'm cashing out like johnny but I will not walk the line They told me take your time until it's your time to shine Well tonight I'm taking over like the world is finally mine And I run it, run it, run it, run it And I run it, run it, run it, run it

So love it or hate it we own it We did it, we made it, we've done it We're finally here We're finally here We're finally here And we ain't going nowhere So look at us now We did it all for this And we are and we are And we ain't going nowhere So look at us now We were made for it And we are and we are And we ain't going nowhere So we ain't going nowhere Going nowhere Going nowhere We ain't going nowhere We ain't going nowhere We ain't going nowhere We ain't going nowhere Going nowhere And we ain't going nowhere
