

Hurricane

Down with Webster

If you look into my eyes, you'll see
Nothing but fire
You can dive into my mind and feel
All my deepest desires

There's no use to holding on anymore
Just let go, let go, let go
I'm crashing my way through this life, oh-oh-oh
Can't hold on, hold on

I'm something like a hurricane
You gon' remember my name
Remember my name
I'm something like a hurricane
You gon' remember my name
Remember my name
Hurricane
I'm something like a hurricane
I'm something like a hurricane
You gon' remember my name
Remember my name

I'm tearing it apart, so twisted, I'm
I'm upside-down
Spinning you around, there's nowhere to hide
From these dark clouds

Let's go get it done, girl, whoa
Can't fight this feeling anymore
I'm crashing my way through this life, oh-oh-oh
Can't hold on, hold on

I'm something like a hurricane
You gon' remember my name
Remember my name
I'm something like a hurricane
You gon' remember my name
Remember my name
Hurricane
I'm something like a hurricane
I'm something like a hurricane
You gon' remember my name
Remember my name

Bigger planes, still ablaze
Better aim, get away
Bigger wage, crash on 'em, [?]
Know the name, growing up and blow away
Still here and [?]
Rap hop, shook it up
Took it all, pirate life
[?], look it up
Stayed down, now it's looking up

So I'm backing out when they backing out
Just acting up, acting out
Been building up just to cut it down

And I beckon them like [?]
And I been hot, been cold
Been high, been low
Down, never stop the night starting now

I'm something like a hurricane
You gon' remember my name
Remember my name
I'm something like a hurricane
You gon' remember my name
Remember my name
Hurricane
I'm something like a hurricane
I'm something like a hurricane
You gon' remember my name
Remember my name
