

# Kingdom

## Downstait

Adrenaline, in my soul  
Every thought, out of control  
Do it all to get them off their feet

Crowd is here, about to blow  
Waitin' for me to start the show  
Out the curtain, lights go up I'm home  
(Whoa!)

And my father said, when I was younger  
Hard times breed better men (better men!)

You took it all away, I give it all away  
Can't take my freedom  
Here to change the game, a banner made of pain  
I built my kingdom

Now you bow to me  
You took my dreams but not my name  
You'll follow me until the end  
I am my kingdom

Lights go down, I'm ready now  
Tear this roof off for the town  
Gonna give 'em what they came to see

Hear the crowd, on their toes  
Ready for me to start the show  
Out the curtain, lights go up I'm home  
(Whoa!)

And my father said, when I was younger  
Hard times breed better men (better men!)

You took it all away, I give it all away  
Can't take my freedom  
Here to change the game, a banner made of pain  
I built my kingdom

Now you bow to me  
You took my dreams but not my name  
You'll follow me until the end  
I am my kingdom

You tried to tell me what to do  
I saw the door and kicked it down  
I stepped right over and right through  
And you can never stop me now  
(Bow!) (Now!)

I am the king and you're the crown  
Now watch me as I take my throne  
And rule my kingdom

You took it all away, I give it all away  
Can't take my freedom  
Here to change the game, a banner made of pain

I built my kingdom

Now you bow to me  
You took my dreams but not my name  
You'll follow me until the end  
I am my kingdom

You took it all away, I give it all away  
Can't take my freedom  
Here to change the game, a banner made of pain  
I built my kingdom

Now you bow to me  
You took my dreams but not my name  
You'll follow me until the end  
I am my kingdom
