

# One Last Time

Downstait

You thought you'd seen the last of me if only that were true  
Because now you see I'm standing right in front of you  
You thought I'd forgotten everything you did  
But I remember, yes I remember

Give me one last time  
To do this over  
Give me one last time  
To throw it back at you  
Give me one last chance  
To fuck you over  
Give me one last time  
Give me one last time

Next time let's hope that you can walk the walk i hear you talk  
I make you pay for all the damage that you've done to me  
Next rime I'll make sure that you won't get the best of me  
You won't see it coming, you won't see it coming

Give me one last time  
To do this over  
Give me one last time  
To throw it back at you  
Give me one last chance  
To fuck you over  
Give me one last time  
Give me one last time

One last time that's all i need to show you  
One last day to prove you wrong again  
One last time that's all i need to show you  
One last word to set it all straight  
See me fly just like i tried to tell you  
Just like i tried to tell you, just like i tried to tell you

Give me one last time  
To do this over  
Give me one last time  
To throw it back at you  
Give me one last chance  
To fuck you over  
Give me one last time  
Give me one last time

Give me one last time (to fuck you over)  
Give me one last time  
Give me one last time (to fuck you over)  
Give me one last time  
Give me one last chance (to fuck you over)  
Give me one last time  
Give me one last time (to fuck you over)  
Give me one last time
