

The Hills Have Eyes

Dozer

Reborn as the sun,
a shooting star won't take you back...
Millions of years ahead,
somewhere 'tween now and gone...

Can you hear it call ?
Can you see at all ?

He is the son of evil,
the one that hides in the shadows...
You better watch your back now,
'cause the hills have eyes,
And now your time has come...

Long gone now it's back,
back from the life from beyond...
Breathing electric light,
nothing can save you now...

Can you hear it call?
Can you see at all?

He is the son of evil,
the one that hides in the shadows...
You better watch your back now,
'cause the hills have eyes,
And now your time has come...

He is the son of evil,
the one that hides in the shadows...
You better watch your back now,
'cause the hills have eyes,
And now your time has come...
