

# Looking for Something

Dr. Alban

We are moving non-stop  
Believe all true in heart  
We wouldn't stop moving on  
Cause we're looking for something  
Looking for something

Never look back, never look back  
Never look back, never look back  
Never look back

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Because we're looking for something

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Because we're looking for something

Without dreams to move on  
What confidence account and  
We will read what we saw  
Cause we're looking for something  
Looking for something

Never look back, never look back  
Never look back, never look back  
Never look back

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Because we're looking for something  
Never look back, never look back

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Never look back, never look back  
Because we're looking for something  
Never look back, never look back

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Because we're looking for something

We are on, moving on  
We are moving non-stop  
We won't stop moving on  
For our dreams  
Cause we're looking for something  
Because we're looking for something  
Never look back, never look back
