

# Shooting Stars

Dragon

It's that time of the year  
Leaves are falling to the ground  
I'm waking up to find the curtain falling down

In the streets nobody laughs at all  
The people that I meet make the strangest sounds

We're all shooting stars in the sky  
And it seems that love always blinds my eyes  
Shooting stars, they never last  
I'm on a fast train, I'm on a fast train  
Looks like I'm never gonna change

The longest day and the shortest night  
Shooting stars spread their light over me  
Loving arms, oh those fading charms  
I'm waking up to a world of mystery

Shooting stars in the sky  
And it seems that love always blinds my eyes  
Shooting stars, they never last  
I'm on a fast train, I'm on a fast train  
Looks like I'm never gonna change

It's a mystery to me, am I just a shooting star?  
It's a mystery of shooting star that shines a light on me  
Am I just a shooting star in the sky?

Shooting stars, they never last
