

Dominion

Dragonlord

Welcome to eternity of misfortune
Incineration from the guiding light
through the mysted haze
Hails the Morningstar....
Angels torn in two...
Ferocity of Satan's swarm

Can't you see all the signs?
Blood spills over the shores!
Ringin forth ancient prophecies, dominion!

A blackened trail of burning slums
Recognize your end has been foretold...

Dominion!

Destined!
To wield thy sword,
this witching hour surrounds,
Golden monarchs capitulate,
total enslavement underground!

Golden monarchs underground!

"Summoning dark forces
Rising shadows from below
Crossing the Vortex
Years embalmed waiting for the show
'Oh, this rotting corpse'
Is telling us to go!
Death calls for genocide
Waiting for more heads to roll!"

Blood! enables thee
to march on!
Riding forth with the
Gods of fire
Old blasphemy
and chaos ride!

Can't you hear
all the lies?
Ripping wide
over shore
Aligning now
is the dying
sun and an ocean floor

This sovereignty disabled
Royalty of flesh to carve
Reapers feast on the eyes
of gods
Behold this regal final sign!

Dominion!

Inhabitants of the netherworld

Infernal forces sent from Hell
Here to die
and torch this ground
Invert the cross!
the Beast prevails!
DOM.
