

Ominous Premonition

Dragonlord

The dead of night as the wolves they surround
Your destination is a burial ground
When shadows fall you'll the see
the bodies fall like stars
Chew the bitter corpse with tasteless blood!

Blasphemous spell
- fear the beasts as we gather around.
We'll cut you down!
In blood you'll drown!
Forlorn future that's cloaked in black!

Send in the Dogs
Lapping up the guts of those who fell
Hatred!
Send in the Wolves
Claw marks in blood!

The deadly jaws of death are now unbound
The inhumanity- a slaughtering ground
The Master's call- you'll see the resistance is futile
Unleashing forces that conjure..Doom!

Send in the Dogs
Ripping up the carcasses of Saints
Hatred!
Send in the Wolves!

Demons!

Hate! Hate! Hate! Hate!

Unholy force
Rolling like thunder
You better run while you can

We roam the night
Defiant forever
Mighty destroyer of man

With blood on thy claw
And voracious might
We have you locked in our sights

Malevolent swell
Bestial hell
With your death brings us delight

Evil
Evil to the bone
Pure Evil

Evil
Pure hell on this earth
Evil

Send in the Dogs!

Feasting on the pleasures
of the flesh
Hatred!
Send in the Wolves!
