

Serpents Of Fire

Dragonlord

Serpents of fire
Writhe upon the innocent
"'Tis evil that rules this black twilight"
A curse chosen for thee end of times...

Their wings won't make a sound
When Ye faithful have fallen aside"
Cut the heads off all!

Serpents Devine
Flames charred through stoned cold walls
"Endless chaos, a venomous crush"
Sound the horn!
Infest un-death to life!

Fear Ye these nameless spawns'
Black souls on a godless course
An upward crawl
Conqueror of all!
War!

"When the night is black with death
tomorrow never comes!"

Black Death arrives
Swayed from the fires below
"Endless chaos a frenzied bloodlust"
Hell on earth 'Oh fire breathing one!

With fire blood shall flow!
"Poisonous are the fangs of the damned"
Dead again, another falling star...

Rise up Ye nameless spawns!
Black souls where evil dwells!
'Tis vipers nest, a plague amongst this land!

We adore
Snakes of war
Infernal one!"

Damnation forces
Constricting holocaust
Devouring up the crown...

Those snakes of war...
Clamping down, down upon your soul!

Serpents at War
Writhe up with Malevolence
'Tis evil that cast this red moonlight
"Oh ancient one, brethren to no one!"

With fire blood shall flow!
"Ravenous are the fangs of the damned"
O Hell on earth, Eerie inhabitant

Fear Ye these nameless spawns
Black souls a godless course
an upward crawl
conqueror of all!
War!

"We adore
Snakes of war
Infernal one!"

Below the assassins soul
Even the sinful they know
Enroll, in the silent code
Bleeding forever foreknown

Enthroned, in the shadows cold
Deceiving misleading us all!
Erode, in their caskets cold
Silence is Golden they know!
