

# Sins Of Allegiance

Dragonlord

Howling my sins of allegiance  
Raising the dagger of conjurer  
The chosen will never repent  
The covenant of darkness - unholy one  
Behold this evil upon us  
Remember your promise to serve until death  
Bonded by blood - thy will be done!

These evil ways become you!

Gaze into my eyes I'm a devil  
I'll give you this key to open the box  
Patterns unspoken shall guide thee  
Ancient grimoires - thy will be done  
Thrust open the chambers of chaos  
Destruction to all known religions  
This is the end - all saints are dead  
This is the end of it all  
Behold deaths deconstruction  
Forever enthroned, thy will be done!

Necromantic blasphemer  
Protect me as i travel  
Bastard in the eyes of god  
Seed of all things unconceivable

Lucifuge rofocale  
Open the seal evil take hold  
Lucifuge rofocale  
Nowhere to run - this is the end

Neverworld - where brother sold his soul  
And he's heartless - his soul will never know  
End this world - disastrous harmony  
Praise the darkness - alone out in the cold

Growling my sins of allegiance  
On inverted cross, the devil grins  
Opens his mouth with vengeance  
To vomit up my death - apocalypse  
Behold the rise of new Babylon  
The chosen will never repent  
I promise you hell - thy will be done!

Summoning through rituals  
Grimorium verum

Take the oath archangel!  
We must survive at any cost  
Protect me as i travel - unholy one
