

## Ask for More

Dragonsfire

I put the brown glass bottle to the mouth  
Celebrate like we do down south  
When the stuff is good I'm in the mood  
To drink my booze and start gettin' screwed

The wheel is turning, place your bet  
It feels so good when the wager's set  
You try to keep on winning but you always lose  
That's how you do it, well, you can't choose

You start to shiver, you get mad  
A strange addiction in your head

Here comes the train that never stops  
This is the price that never drops  
When you are with us, there's no way back to the  
Life you led before  
That's your drug, ask for more

We're living fast, we have a dream  
We'll never stop 'cause we are supreme  
Working hard, 24/7  
No place for us in heaven

I put the speakers on and turn to ten  
The band starts playing, and then?  
Tonight we're here for a metal show  
What tomorrow brings we'll never know

You start to shiver, you get mad  
A strange addiction in your head

Here comes the train that never stops  
This is the price that never drops  
When you are with us, there's no way back to the  
Life you led before  
That's your drug, ask for more
