

Hell

Dragonsfire

Here I stand - Like so many did before
Here I stand - I'm holding my heart in hands
Here I stand - About to face the end
Here I stand - Like so many did before
Here I stand

The underworld is calling me
I hear the silent cries
The chanting of the lost and damned
I open up for once - the gates of hell
Ablaze and black the dark lord stands
To sacrifice my soul
My time has come, I take the step
Into the fire into - the flames of hell

Into the fire
Bursting in flames
Into the fire
You know my name

You know my name

I have no fear, I'll take it as it comes
Nothing's in my way
I tear down the walls - and rule in hell
I was Born to rule the world
And now hades is my realm
I overtake the throne
And open up - the gates of hell

An army of the undead is under my command
I send them out, my kingdom Comes
My will be done - here in hell
I'll forgive no sins and I'll lead into temptation
For mine is the kingdom, the power
And the glory - here in hell

Into the fire
Bursting in flames
Into the fire
You know my name

The power and the glory here in hell
The power and the glory here in hell
The power and the glory of hell
The power and the glory of hell
