

See me riding through the land
I'm coming back; I'll never go away again
Be prepared for the day of my return
Steel is by my side, your kingdom shall burn

We will be kings - kings, kings
And we'll rule the world
Fight for the crown - death or glory
And we'll rule the world

All my lifetime I fought the world
Soon the whole world rides with me
Side by side we will fight for the crown
Day by day, until our time has come
Watch out 'cause your end is foretold

We will be kings - kings, kings
And we'll rule the world
Fight for the crown - death or glory
And we'll rule the world
We will be kings - kings, kings
And we'll rule the world
Fight for the crown - death or glory
And we'll rule the world

Proudly we stand, together as one
And the war will rage again

Strong is our will, fierce is our hate
We'll shake the walls of the earth
Arrows fly and pounding hoofs draw near
Announcing your end, it's here

We will be kings - kings, kings
And we'll rule the world
Fight for the crown - death or glory
And we'll rule the world
We will be kings - kings, kings
And we'll rule the world
Fight for the crown - death or glory
And we'll rule the world, the world, the world
