

Man on a Mission

Dragonsfire

We're marching on, when duty calls
Armored force, through enemy country
A desert force, our convoy is moving
Keep your eyes open
Our routine is clear, clean and sweep
Search and destroy the foreign leaders
The Sound of a gun we're trapped on the street
A gunfight has begun

We're under attack, I'm firing my guns
Nobody told me, what it was like
No reinforcement, no help is in sight
I'm firing my gun, tryin' to survive

Man on a mission - losing control
Man on a mission - losing my soul

Far from home, entrenched on the roof
Surrounded by hundreds, waiting for rescue
This is a stalemate, noone is moving
We're fighting for our lives
I feel alone, as I'm hearing the shouts
Man down, someone is dying
Desperate cries of a wounded man
Get us out of here

We're under attack, I'm firing my guns
Nobody told me, what it was like
No reinforcement, no help is in sight
I'm firing my gun, tryin' to survive

Man on a mission - losing control
Man on a mission - losing my soul

Now I hear the sound, the choppers are coming
They are bringing death and fear
The enemies are running, no help for them in sight
I'm out of here, I have survived

Man on a mission - losing control
Man on a mission - losing my soul
Man on a mission - losing control
Man on a mission - losing my soul
Losing my soul
