

We live our lives, with hopes and dreams
Wiping every shadow off of our minds
But deep within they stay
Heads high in the clouds, staring down
Floating through the sky, away from trouble
Come back to earth and I'll welcome you

Welcome to my world
Won't you stay for longer
Live my life for me,
Die for me and feel
The pain
The anger
The suffer

I was dreaming, all my life
Dreams of freedom never came true
Prisoner of myself
I say farewell to all the good times
All dreams are gone, my world is my reality
A reality you don't want to see

Don't judge me
'Cause you still don't know me

Welcome to my world
Won't you stay for longer
Live my life for me,
Die for me and feel
The pain
The anger
The suffer

You where the demon who made my world crumbling down
You where the demon who made my world going to the ground
My world...

Welcome to my world
Won't you stay for longer
Live my life for me,
Die for me and feel
The pain
The anger
The suffer

Welcome to my world
Won't you stay for longer
Live my life for me,
Die for me and feel
The pain
The anger
The suffer
