

## Purgatory

## Dragonsfire

Not knowing time was getting low  
Not feeling near the lips of death  
For all the pain that I have brought  
Now creatures lurking from the underworld

They try to rip my heart and soul  
Where is the place that I belong to

What have I done?  
Kill, rape, break bones

My judgement will come  
Death, hate, burn homes

Nowhere to run  
No peace where you roam

This can't be hell and this can't be heaven  
Twilight all around am I trapped in a purgatory  
What can I do to free my mind and soul?  
What can I do to flee from this purgatory?  
Can't be heaven, can't be hell, purgatory, purgatory

Long time ago I was a different man  
Fought for the poor and the brave  
But all the glory poisoned my mind  
And soon I was called the

Black knight with a sword of steel  
Riding on the wings of my doom  
Harvest the land for myself  
Until my time has passed by

Now at the end I'm standing at the crossroad  
Which way is mine will be shown  
On my way into the unknown  
I still hope there's a prayer for me

Will I stand before some heaven's gate?  
Or burn in hell  
My dying soul seeks revelation  
What is my fate? Pray for me to rest in peace

This can't be hell and this can't be heaven  
Twilight all around am I trapped in a purgatory  
What can I do to free my mind and soul?  
What can I do to flee from this purgatory?

Can't be heaven, can't be hell, purgatory, purgatory
