

In this green and pleasant land  
We have a dream to understand  
In the mountains of the mind  
There is a spirit you will find  
Just like the angel from above  
Sent to deliver words of love  
Ancient cross and Zion star  
Eastern ways and praise to Jah  
This is our land  
This is your land  
This is our inheritance  
To lead you on a merry dance  
In the beginning there was light  
Shining path and journeys bright  
When the nations pray as one  
Then will the races all be won  
In this green and pleasant land  
We have a dream to understand  
Open paradises gate  
Dance on the land and celebrate  
Say no matter what your colour  
Your race or your culture  
This is our inheritance  
To lead you on a merry dance
