

# For What You Believe In

Dream On, Dreamer

All that's said.  
Has nothing to do with the way I want to see the world

And now what's left?  
I can't find the answers to  
The questions in my head

You know we've seen it all.  
We met the ones that live no more.  
Deceived your children you said you loved  
Fooled the ones that stood up for you.  
Your light will shine on, until everyone receives  
The hidden words of a million hearts.  
Behold your faith and carry on

They make no sound, when they're coming after you  
And I can't hear you screaming out my name.

Conquer the flags and capture your legs.  
Stand for what you believe in.

Conquer the flags and capture your legs.  
The only ones that keep you from breathing.

Stand for what you believe in.  
The only ones that keep you from breathing.

Breathe in, breathe out  
Behold your true faith and carry on

Read the headlines...  
What they say is anything but real.

Now listen to what they tell you  
Nothing else will be retold  
These are the terms they gave you  
Walk away without a soul

Because voices remain and mark your names.

If you take your hands from your eyes  
You don't know where we have been and died tonight  
With your eyes shut and reinforced  
They won't stop until you pray for gold.  
As they begin to introduce their stories  
Enlighten all their bodies.  
What they do is pull you in,  
Have we forgotten how to deal with them?

We're victims of stories  
That don't make sense to us.

And we are victims of stories,  
That don't make any fucking sense.
